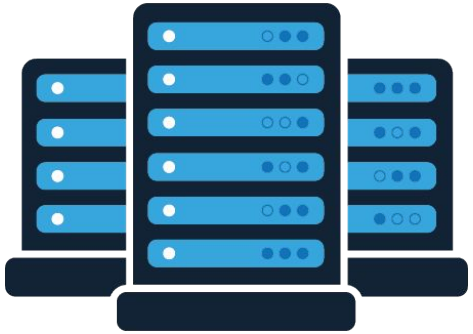
CES TECH

Beyond IT Services, We Deliver Solutions



Future-Proof IT Infrastructure

From Cable to AI Ready Infrastructure

AUTHORIZED SYSTEM INTEGRATOR & TECHNOLOGY PARTNER

- Data Center Architecture & Builds
- Cyber Security Ecosystem
- Managed Services (NOC/SOC)
- AI-Ready Infrastructure
- Architecture Advisory (AaaS)
- Cloud & Hybrid Solutions

ISO 27001 | ISO 9001 | ISO 20000 | MSME

CES TECH AT A GLANCE

Empowering India's IT Infrastructure Since 2023

200+
Projects Delivered

100+
Man-Years Expertise

40+
OEM Certifications

500+
Satisfied Clients

WHO WE ARE

CES Tech (N-Expert Solutions Pvt. Ltd.) is a premier IT infrastructure services company. We design, deploy, and manage mission-critical data centers and enterprise networks for India's leading system integrators, OEMs, and enterprises. Our core strength lies in software-defined data center builds, multi-vendor security ecosystems, and managed services. We also operate as a white-label services provider, enabling partners to deliver world-class infrastructure under their own brand.

Founded 2023 | Pvt. Ltd. Entity

HQ: Noida | Offices: Delhi, Bengaluru, Gurugram

Multiple CCIE & CCDE Certified Leadership

ISO 27001, ISO 9001, ISO 20000 Certified

White-Label & Direct Delivery Models

WHAT WE DO

End-to-End IT Infrastructure Lifecycle Services

Data Center Builds

SDN Fabric | Spine-Leaf
Multi-Vendor DC Design

Enterprise Networks

LAN/WAN | SD-WAN
Campus | Wireless | NAC

Cyber Security

NGFW | SIEM/SOAR | SOC
Zero Trust | DLP | WAF

Cloud & Virtualization

Hybrid Cloud | Public Cloud
Containers | SASE

Managed Services

24x7 NOC/SOC | O&M
White-Label MSP | ITIL v4

AI-Ready Infra

GPU Fabric | HPC
Lossless Ethernet | NVMe

Architecture Advisory

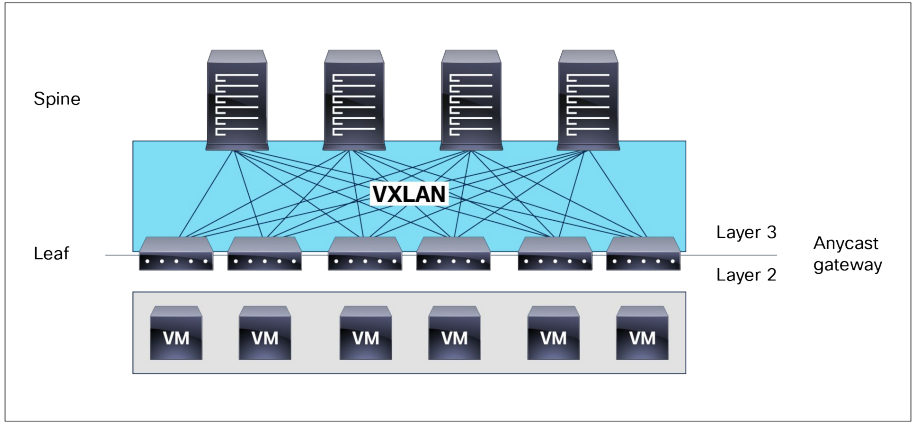
AaaS | Design & Consulting
Gap Assessment | Migration

Professional Services

IT Audit | Compliance
Training | AMC | Rentals

DATA CENTER EXPERTISE

Designed, Deployed & Managed by Multi-CCIE Certified Experts



SDN & FABRIC

Software-Defined Networking | Spine-Leaf Architecture

Multi-Tenant Segmentation | Policy-Driven Automation

DC-DR Fabric Stretching | VXLAN EVPN

TRADITIONAL DC

3-Tier Architecture | High-Speed Switching

Load Balancing & WAF | Compute & Storage

Virtualization | DR Replication & BCP

AI-READY DC

GPU Cluster Networking | HPC Ethernet Fabrics

Lossless RoCEv2 / PFC | NVMe-oF Storage

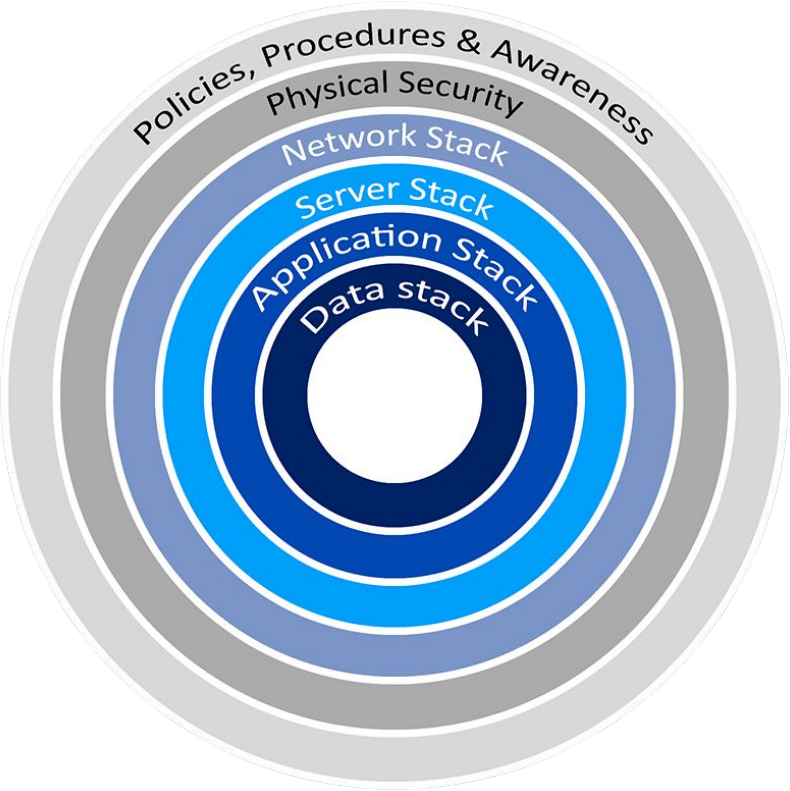
400G Topologies | AI Workload Optimization

DELIVERY: Discovery & Assessment → Architecture & Design → Deployment & Integration → Transition & KT → Steady-State Operations

CES TECH
Beyond IT Services, We Deliver Solutions

CYBER SECURITY ECOSYSTEM

Integrated Defense-in-Depth Across Every Layer



Perimeter Defense

NGFW | IPS/IDS | Anti-DDoS | SSL VPN

SOC Operations

SIEM | SOAR | UEBA | 24x7 Monitoring

Endpoint & Identity

EDR/XDR | NAC | PAM | IAM | ZTNA

Application Security

WAF | API Security | DLP | DAM

Compliance & Audit

VAPT | ISO 27001 | CERT-In | DPDP Act

Threat Intelligence

APT Detection | Threat Feeds | Brand Monitoring

MANAGED SERVICES

SLA-Driven 24x7 Operations | White-Label Partnership | ITIL v4 Aligned

24x7x365 NOC & SOC Monitoring

Real-time infrastructure & security surveillance across all sites

ITIL v4 Operations Framework

Incident, Problem, Change & Release Management with SLA governance

L1 / L2 / L3 Tiered Support

Certified engineers from basic monitoring to architect-level resolution

White-Label Partnership Model

Seamless branding under your identity — your invisible delivery arm

Complete Resource Ownership

Hiring, training, replacement & leave management — fully managed by us

SERVICE LEVEL HIGHLIGHTS

99.5%+	Guaranteed Infrastructure Uptime
15 Min	P1 Critical Incident Response
24x7x365	Round-the-Clock Coverage
ITIL v4	Aligned Operations Framework
Multi-Tier	L1/L2/L3 + SME + OEM Escalation

ARCHITECTURE AS A SERVICE

Vendor-Agnostic Advisory | Truly Independent | Execution-Ready Strategy

DC Architecture & Design

Greenfield & brownfield data center architecture with HLD/LLD, capacity planning, and future-proof blueprints.

Infrastructure Gap Assessment

Forensic deep-dive into existing environments to unearth gaps, risks, and optimization opportunities.

Legacy-to-Modern Transformation

Guided metamorphosis from siloed legacy to software-defined, AI-ready architectures with zero disruption.

Migration Advisory

Governed migration strategies with dependency mapping, wave planning, cutover strategy, and DR validation.

Vendor-Neutral RFP & Validation

Independent architecture comparison, RFP creation, BoQ/TCO analysis, and executive design sign-off support.

CXO Advisory & Governance

Ongoing strategic advisory for CIOs/CTOs — architecture reviews, technology roadmaps, and risk planning.

TECHNOLOGY ECOSYSTEM

Strategic OEM Partnerships | Multi-Vendor Expertise | Best-of-Breed Solutions

Cisco

Fortinet

Palo Alto

Check Point

F5 Networks

Arista

Juniper

Aruba/HPE

Radware

Cisco Meraki

Vendor-agnostic approach delivering best-of-breed solutions across heterogeneous environments

PROVEN TRACK RECORD

Selected Engagements Across Industry Verticals

BFSI

Core Data Center Build

Full-stack high-availability data center with SDN fabric, next-gen firewall, and application delivery controllers.

SDN Fabric | NGFW | ADC | Virtualization

GOVERNMENT

Mission-Critical DC for PSU

Resilient multi-site data hub with focus on compliance, business continuity, and security-first architecture.

SDN | WAF | DR/BCP | Compliance

BFSI

1800+ Branch SD-WAN

Enterprise-wide SD-WAN transformation with centralized management, cloud-on-ramp, and WAN cost reduction.

SD-WAN | DC/DR | SASE | Cloud-on-Ramp

TELECOM

Carrier-Scale DNS Platform

DNS optimization for millions of subscribers with enhanced global traffic management.

DNS/GTM | Scalability | HA

GOVERNMENT

National-Scale NOC/SOC Ops

24x7 NOC & SOC for a national government project with SDN fabric, multi-site DC-DR and RPO=0.

SDN | NOC/SOC | SIEM/SOAR

ENTERPRISE

State Data Center Build

Secure state-level hub with multi-layered visibility, threat analytics, and web application protection.

SDN | Threat Analytics | WAF/LB

TRUSTED BY INDUSTRY LEADERS

Serving System Integrators, Enterprises, Government & OEMs

SYSTEM INTEGRATORS

Large global & domestic SIs including NTT, Airtel, and leading tier-1 integrators

TELECOM & ISP

Major telecom operators and internet service providers across India & Middle East

ENTERPRISE & MFG

Leading enterprises in FMCG, automotive, aviation, energy, and manufacturing

GOVERNMENT & EDUCATION

Central & state government bodies, premier educational institutions, and PSUs

OEM PARTNERS

Authorized partnerships with 10+ leading global technology vendors

VERTICALS: BFSI | Government | Telecom | Data Centers | Healthcare | Education | FMCG | Manufacturing

WHY CES TECH?

Six Reasons Leading Enterprises Choose Us

Multi-CCIE Certified Team

Multiple CCIE & CCDE certified experts leading every engagement — architecture-driven, not sales-driven.

Data Center DNA

Core competency in software-defined data center builds. This is who we are — not a side offering.

White-Label Ready

Seamlessly integrate under your brand. Your client sees your name — we deliver the expertise.

AI-Ready Infrastructure

Designing tomorrow's data centers today — GPU fabrics, lossless Ethernet, HPC for the AI era.

End-to-End Ownership

From Day-0 design to Day-2 managed operations. Single point of accountability across the lifecycle.

Proven at Scale

Large-scale deployments across BFSI, Government, and Telecom. Multi-year O&M contracts with stringent SLAs.

ISO 27001 | ISO 9001 | ISO 20000 Certified | MSME Registered | Multi-CCIE & CCDE Certified Team

HOW WE ENGAGE

Flexible Models Tailored to Your Business Needs

PROJECT BASED

- Data Center Builds
- Network Deployments
- Security Implementations
- Migrations & Upgrades

MANAGED SERVICES

- 24x7 NOC/SOC O&M
- SLA-Based Support
- White-Label MSP
- ITIL Governance

STAFF AUGMENTATION

- Dedicated Engineers
- On-Site Resources
- Flexible Duration
- Skill-Based Deployment

CONSULTING & ADVISORY

- Architecture Reviews
- Technology Roadmaps
- Audit & Compliance
- Vendor Selection

Discovery & Assessment → **Architecture & Design** → **Deployment & Integration** → **Transition & Knowledge Transfer** → **Steady State Operations**

CES TECH

Beyond IT Services, We Deliver Solutions

Whether you need a greenfield data center, a managed NOC/SOC, or a white-label infrastructure partner — we're ready.
